

07/5/26

Mr Matthew Johnson
Community Officer
Hednesford Town Council

Dear Matt,
Xmas lights quotation.

In reply to your email request for a quotation for this year's lights I confirm that the cost for our annual test/repair/store cycle and installation, switch on support & removal after Xmas will cost 3.5% more than last year, as most of our costs are labour oriented.
The cost for the above work will amount to £4,214+VAT.

In addition, there will be an extra cost (as quoted in my letter of 23/4/25) for a simple pole stress test report for Eon Energy amounting to £250+VAT. This has to be done & submitted to Eon (& you) by 31st July.

Let me know if I have misunderstood anything.

Yours sincerely

Gordon Stone
